

KINISTIN BISON CORPORATION

Bison meat is lean and offers superb nutritional value. It is a healthy alternative to beef, chicken, and pork. Many recipes are available for Bison and because it is lean, require minimal preparations for cooking.

Call us for your bison product needs. Our bison meat is organically grown and is raised locally in a pesticide and fertilizer free pasture.

Try barbequing bison t-bone steaks, or grilling our spicy, bison smokies. Excellent for your barbeque needs for all seasons. 50 lb meat packs also available.

Please contact our office staff and let us help you plan your menus for gatherings or personal bison meat product needs.
